## MOM'S SWEATER

by Lisa Calle

YIELD 18½" square unfinished

by Lisa Calle

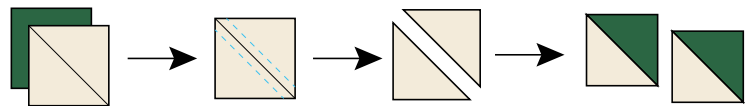

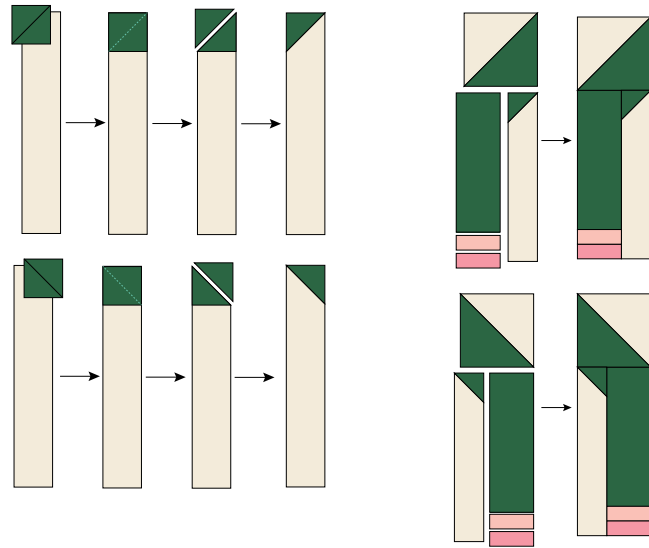

**STEP 1. MAKE SLEEVES**

Use the Easy Corner Triangles (ECT) method: Mark a pencil line along the diagonal of each green B square. Align with the top of one A strip. Sew on the marked line. Trim 1/4" away from marked line. Press.

Repeat with remaining A and B pieces on the opposite side to create a mirror of the first unit.

Make Half Square Triangles (HSTs): Mark a pencil line on the diagonal of the wrong side of background 6" square. Align right sides together with green 6" square. Sew 1/4" away from each side of the pencil line. Cut apart on the line. Press to the darker fabric. Trim each resulting Half Square Triangle (HST) unit to 5 1/2".

Join ECT and HST units with E cuff pieces to create the left and right sleeves of your sweater.

**STEP 2. MAKE SNOWFLAKE**

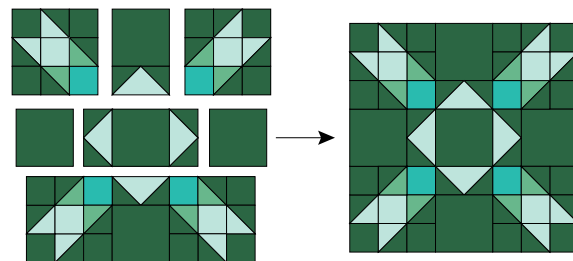

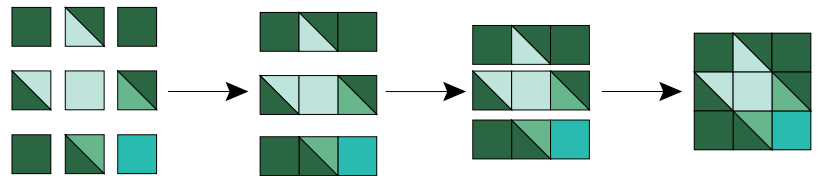

Make HSTs as described above using combinations of J squares as shown. Make 8 HSTs of each color pairing. Take your time piecing and press carefully to avoid distorting the pieces. Starch and trim each HST unit to 1 1/2" square.

Join HST units with 1 1/2" squares to create snowflake corners. Press well and use starch. Make 4 corner units.

Make Flying Geese: Mark a pencil line on the diagonal of the wrong side of green I squares. Align with the corner of light blue rectangle. Sew on the marked line. Trim 1/4" away from the sewn line. Press open. Repeat on the opposite side.

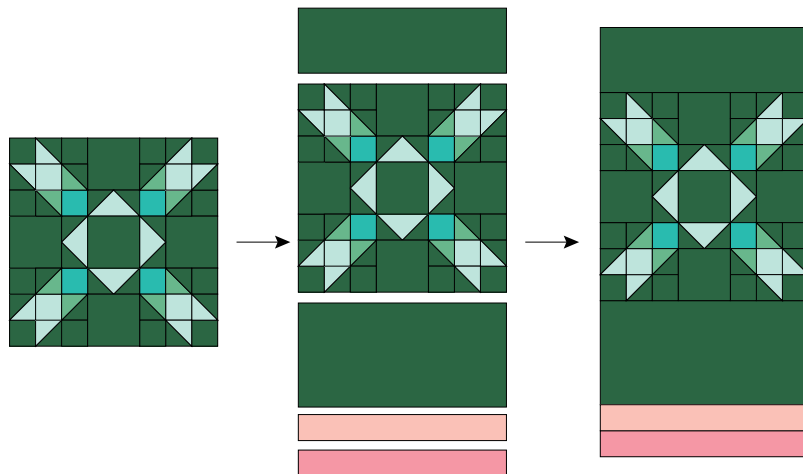

Make 4 flying geese units.

Join snowflake corners, flying geese and green B square to create the snowflake block. This block should measure 8 1/2" square unfinished.

**STEP 3. MAKE CENTER**

Join snowflake block with remaining sweater pieces as shown. Press well.

**STEP 4. ASSEMBLE THE BLOCK**

Join remaining block pieces with the units created in previous steps to complete the block. Press well and trim to 18½" square.
