

Midnight in the Garden

Sweetfire Road

As the sun sets over a cottage garden, the bright day's sky slowly turns to the soft blush and gold shades of twilight. The night air is scented with fresh earth, ripe berries and sweet apples, and as midnight arrives, the garden is transformed into a strikingly beautiful stillness colored in shades of charcoal and moonlight. It is a peaceful place of quiet repose and magic, a lovely contrast to the busyness of the day. Welcome to my *Midnight in the Garden*.
